

Editorial

In both 2020 and 2021, probably due to the COVID-19 pandemic, we received only a small number of submissions, and were unfortunately not able to publish complete volumes for each year. Hence, around the end of 2021 we completed a single volume for both years. We believe, however, that the papers in this issue are important contributions, and we thank everyone for their patience. Although the volume itself is dated to 2021, we have dated the first two papers to 2020, since they have been in circulation in electronic format since that time. With our current submissions, we hope to be able to publish a complete volume in 2022. We apologize to our subscribers for the delay in getting this issue out, and we thank our authors and referees for their continued support of the journal.

In 2020, we made a change to the distribution of back issues of the journal. From now on, back issues will be available for free download from the journal's website with a 7-year moving window. For more recent issues, please continue to check your university library, or subscribe to the journal. For paper copies, please contact the journal.
